Nearly  
20 years ago  
we founded  
our family company,  
trying to accomplish our vision  
that shoes, accessories and apparels  
we really wanted to be selling,  
had to fulfill 3 things  
– **Creative and Innovated Styling,**  
**Comfort and High quality**  
**on value for**  
**money price level...**

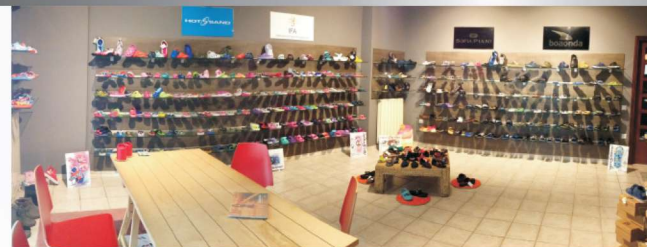

So, all these years our company represents, and distributes for Greek and Cyprus markets some important brands such as HOT SAND, SOFIA PIANI, HOT SAND DREAM COLLECTION, SUYUTE, UNZE LONDON, BOAONDA, RGE SHOES ITALY.

Our 20 years presentation has created a precious experience and a very healthy basis with the most important clientele in both countries.

Our clientele basis is HIGH END and fashion clothing stores, medium and high level shoes and accessories stores and important chain stores.

Having our most important mission, customer services and support, strong sales force team, brands presentation showrooms, business trips visiting the customers and market very often all around Greece, getting updated at the most important exhibitions and showrooms abroad, we expect to always have some new proposals of fresh and new brands creating new opportunities for our market.

For our customers, to view the whole collections, we have already opened a renewed showroom in the center of Athens.

This allows to our customers to build the right product mix for their stores in the comfort of a purpose designed footwear environment.
